Please do not forget to carry a water bottle, down jacket, raincoat, and some dry

fruits & chocolates with you. Everybody has a different pace of walking. People might not be around when you need them. So, you have to be self-dependent on Basic things.
After making an uphill trek for about 4 hours or so, we will reach a high pass Where we will find Tibetan prayer flags fluttering. This is called 'Dolma La passes (5800 m.). This is the highest point that we will be crossing over during this divine Trip. After making a gentle descent from the pass, we will find ourselves near a Tiny glacial lake. This is 'GauriKund'.

From Gaurikunda, the trail leads us rapidly down through an area full of boulders and loose pebbles. Going down can be more demandig compared to coming up.
In case you have to hire a horse, you need to come down off the horse. After trekking down for another one and a half hours or so from Gauri Kunda, we will eventually reach the valley floor.
